INTRODUCTION

This document is a guide to the installation, configuration and usage of the Reepay payment module for Prestashop.

The module allows you to:

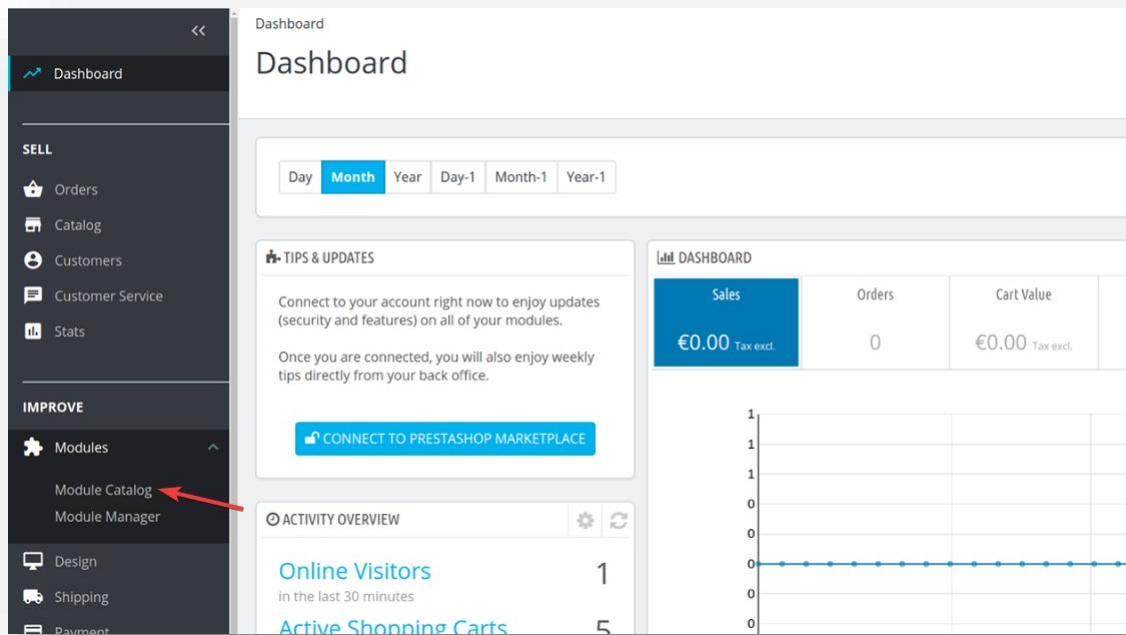

- Receive payments through Reepay
- Automatic payment settlement on order status updates
- View Reepay transaction history without leaving Prestashop
- Make refunds

INSTALLATION

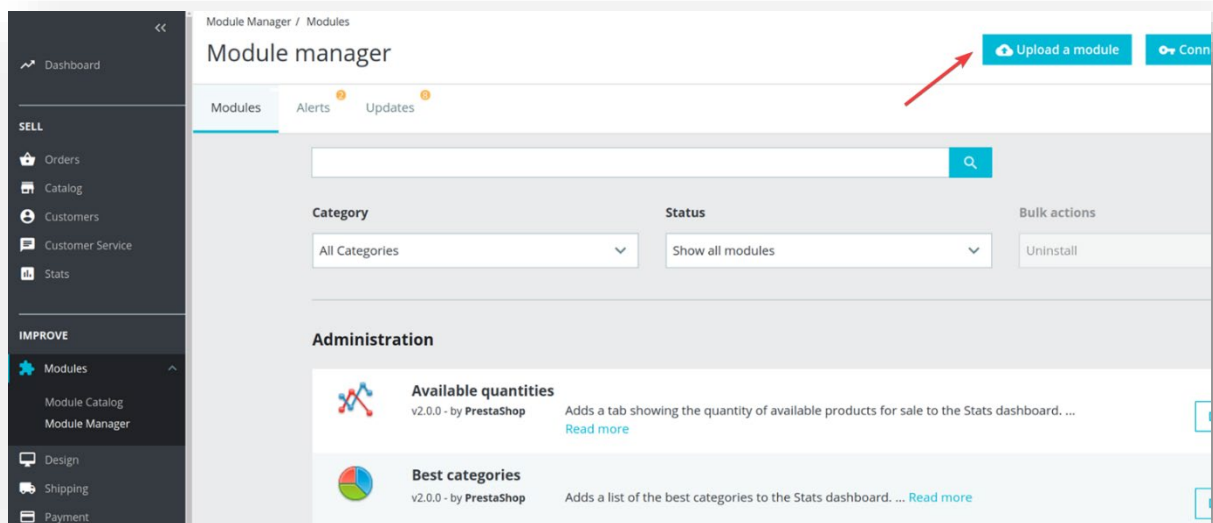

The Reepay module can be downloaded from the Reepay website via this link:

<https://reepay.com/download-plugins/>

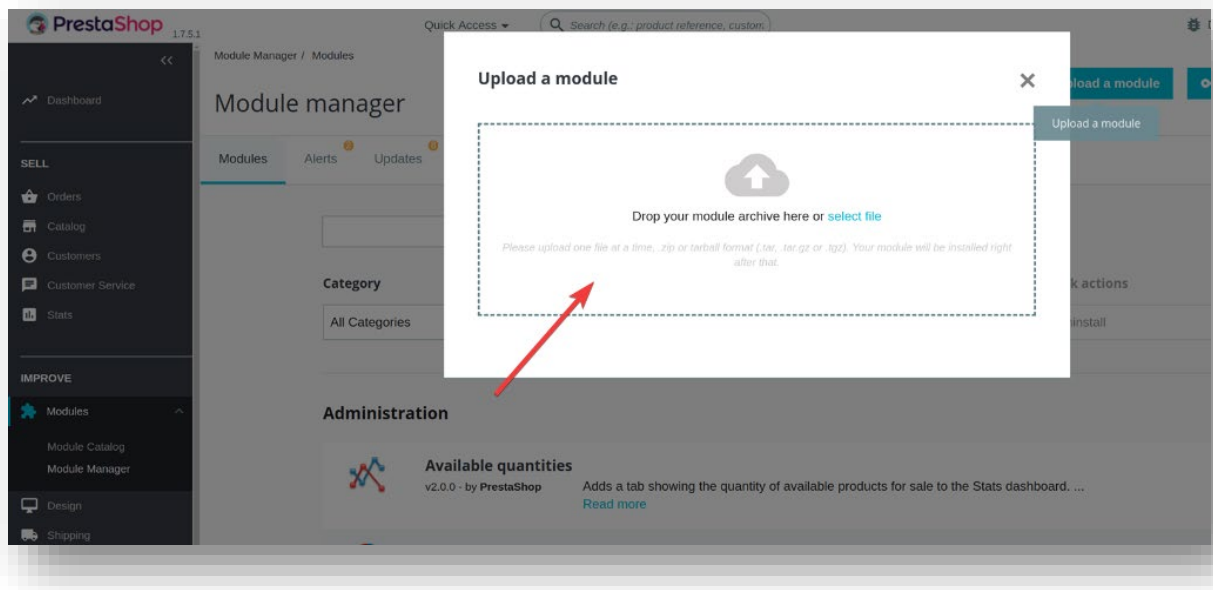

Go to 'Modules' → 'Module Catalog'

Find the button 'Upload a module'. It may be placed differently depending on the version of Prestashop

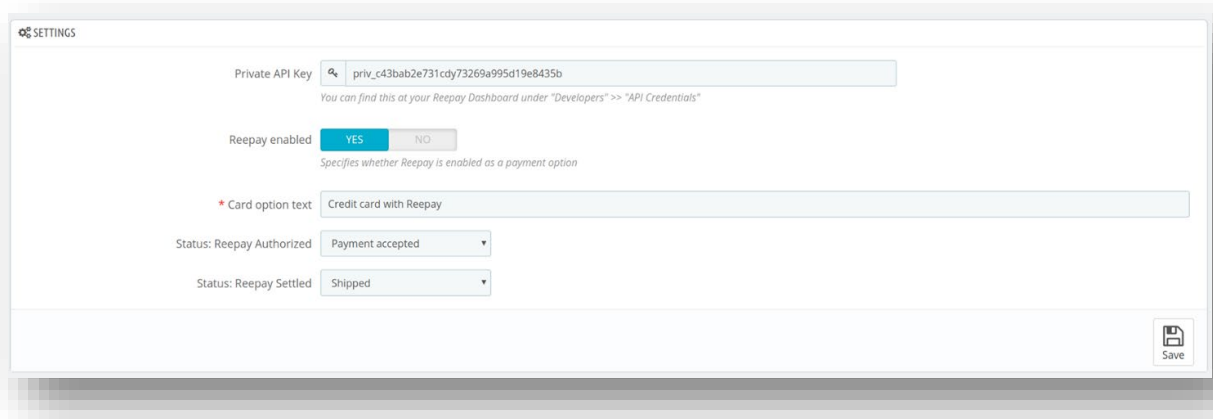

Next, drag the repay-v.x.x.x.zip file into the marked area or press 'select file'.

The installation of the module is now completed, and you can go directly to configuration or find the module in the 'Module Manager'.

CONFIGURATION

The configuration of the module looks like this

Private API key

You can find your API key in your Reepay dashboard under 'Developers' → 'API Credentials'.

Reepay enabled

This Specifies whether Reepay is enabled as a payment option.

Card option text

This text will be shown in the checkout.

Status: Reepay Authorized

When a payment is authorized by Reepay, this is the status of the order.

Status: Reepay Settled

When a payment is settled, this is the status of the order.

ADMINISTRATION

An order made through Reepay looks like this:

ORDER DGWTUSOCC #7

Print order View invoice No delivery slip Partial refund

STATUS 1 DOCUMENTS 1

reepay Refund: Order not settled Refund order View order in Reepay

Date	Type	Status	Amount
29 Nov 2019 13:38:15	Authorization	Authorized	28.72 EUR

Payment accepted 11/29/2019 13:38:16 Resend email

Payment accepted UPDATE STATUS

1. This line is the status line, which reflects the status in your Reepay dashboard
2. This button gives you the option of refunding the order, in case this is needed.
 - The order cannot be refunded before it is settled.
3. When you update the status to 'Shipped' (or the status of your choice), the payment will automatically be settled in Reepay.
